GOTHAB (GOODHOPE), Florence

Died: January 1, 1902 at 6 years of age

Viborg Enterprise - January 2, 1902

New Years day little Florence Gothab died from scarlet fever, age six years.

Every heart in Viborg was filled with sorrow when it was learned that beautiful, bright little Florence was dead. She was dearly beloved by all, especially by her teacher, Miss West. Oh how our hearts goes out to these friends who are losing their darlings by this dread disease; they must bear their suffering alone. Mr. and Mrs. Gothab have the sympathy of all in the loss of their only child.
